In my opinion, as an owner of all the Pixel Puzzles games and a big fan, this is the poorest game release out of the Pixel Puzzles

series. I don't even mind that the game is a promotion of another game of the creators, which is for many not the most exciting theme, as I could literally find joy in assembling jigsaw puzzles of walls or grass. Overall my expectations are low, but I sometimes find features such as in this game, making it unplayable or rage inducing. The background similarly to Birds is dark which makes the dark toned puzzle pieces (most images are dark green/grey) really difficult to recognise. The images don't have enough color variation especially puzzle 24, which would allow you to with some effort use visual cues to find the solution - resulting in just clicking until you get lucky. There are no new tile edges (unlike in earlier games), the interface is still outdated and I feel like Pixel Puzzles has begun to stagnate. I think I will start looking at other competitors' games such as Animated Jigsaws.. I really liked all those puzzles. They're pretty cute.. I like playing these puzzle games because they bring back memories of doing puzzles with my uncle, so I'm always going to gravitate towards them, and enjoy them. Having said that, I haven't played Radical Roach, and the pictures in here were obviously all relevant to that game, which is fine. The issue I had was that the puzzles were generally pretty dark, and then all of the backgrounds were dark, so it was difficult seeing where certain puzzles had to go because, even while circling through the colors, the backgrounds were too dark to see the puzzle easily. Other than that, the puzzles were fine, the pictures were kind of cool, and it's an easy 100% game. I'd recommend buying it on sale, though, or getting it in a bundle.. It's a fun puzzle game, even if it is based off another one of their games. Each puzzle depicting a scene from RADical ROACH and the OST being mostly the same as well. The pictures can be a bit tricky due to the darkish and post-apocalyptic imagery, but on average this is a must-buy for a pixel-puzzles fan.. This franchise has the best jigsaw games on steam. And I'm going to definitely give it a positive review. All of these games deserve it. Pixel puzzles are gud. We can't use custom images: That is disappointing. But it's the only negative that this great game has. Everything else is worthy of a nice positive review.. I love Pixel Puzzles games, I buy them all! Bring out more please!!! 9/10 :D.
